## SUMMARY

---

As a life-long STEM enthusiast, I've dabbled in and out of technology since I was 12 years old. I'm a fast learner who's recently completed training in multiple programming languages, frameworks, and tools, while working 1-on-1 with industry professionals and completing two full applications in a 9 month boot camp. I enjoy working on a team, and am looking for a back-end role in a challenging but supportive environment.

## SKILLS

---

**PROGRAMMING LANGUAGES:** Python, JavaScript, SQL, HTML/CSS, Java

**FRONT-END FRAMEWORKS:** WTForms, Bootstrap, JQuery, XML/JSON, React, Ajax, Tkinter, Turtle (python)

**BACK-END FRAMEWORKS:** Flask, PostgreSQL, SQLAlchemy, NodeJS, WTForms, Express, SQLite, Django

**SPOKEN LANGUAGES:** English, French, Spanish

## PROJECTS

---

### Quixr

- Created Quixr: An app to chose a cocktail recipe
- Used Python, Flask, and SQLAlchemy to create a RESTful back-end
- Used PostgreSQL as a database to store user and drink information, and bcrypt to encrypt user passwords
- Used HTML/CSS and Bootstrap to create an intuitive front-end with a responsive design

## EXPERIENCE

---

### Springboard Software Engineering Career Track

#### Fellow

- 700+ hours of hands-on course material, with 1:1 industry expert mentor oversight
- Mastered skills in front-end web development, back-end web development, databases, and data structures and algorithms.
- Completion of 4 in-depth portfolio projects (2 from ideation to completion, 2 from skeleton code to completion).

### Squaw Valley Ski Resort

**Lead Bartender** · Nov. 2015 to Mar. 2020, Nov. 2015 to Mar. 2020 · Olympic Valley, CA

- Engaged with, built relationships with, and anticipated the needs of 200+ Guests at daily operations venue.
- Communicated with management and sales team to plan, lead, and execute \$50k+ events with event staff at events venues.
- Thrived in fast-paced, high-pressure environment while maintaining a positive, can-do attitude.

## EDUCATION

---

Springboard Software Engineering Career Track, Certification · Feb. 2021 to Current  
9-month intensive course in Software Engineering methodologies and technologies

Rutgers University, School of Engineering · Aug. 2004 to Apr. 2006

Studies focused on Physics, Chemistry, and Higher Math
